## Education

Graduated Joseph A. Foran High school in 2011 with a GPA of ~3.00

Attended Southern Connecticut State University (2011 - 2012)

Gateway Community College (2013 - 2014)

Southern Connecticut State University (2014 - Present)

On track to graduate in May 2016 with a B.S. in Computer Science and a minor in Mathematics.

## Experience

Stop & Shop (Aug 2011 - Jun 2015)

Front end manager since 2012, was in management training program.

Gateway Community College (2014)

I worked in the Center for Educational Services inside Gateway as a Math tutor.

Future Industries (Jun 2015 - Present)

IT Technician, current main focus is writing applications to automate tasks.

A100 Apprenticeship Program(Feb 2016 - Present)

A program to help aspiring software developers gain experience working on real ventures for businesses with weekly lessons and immediate feedback.

## About Me

I am proficient in Java, C#, PHP, JavaScript, HTML, CSS, VBA, Lua, and SQL. I am most interested in algorithms and the software engineering aspects of computer science, however, I find most areas of computer science to be rather fascinating. I spend a lot of my time studying and teaching myself programming and software design patterns.
